OCTOBER 2026

WOW! Turf Assessment

Market Priorities Across The 12 Eligible WOW! Markets

PREPARED FOR
WOW! Leadership

PRESENTED BY
DevCom ELT

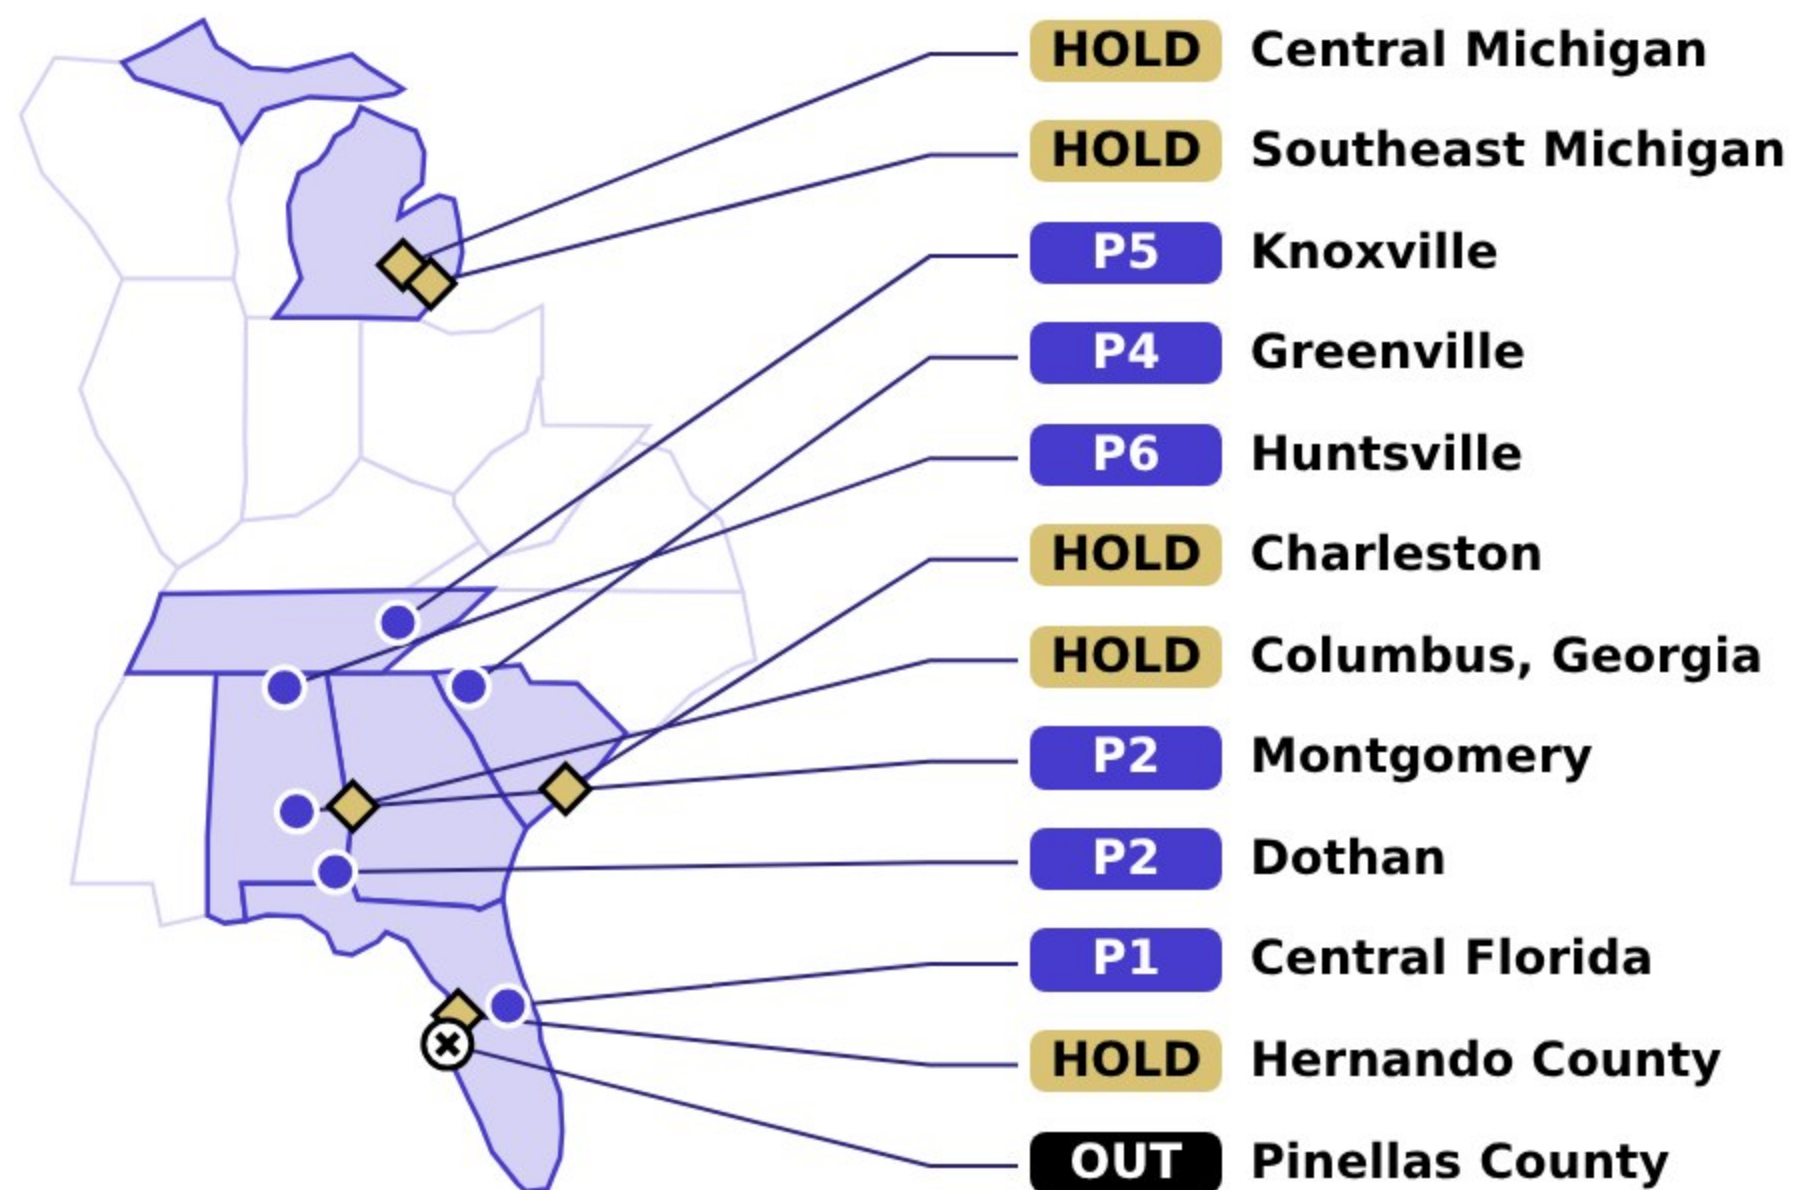

SCOPE
12 Markets · 72 Client Positions

EVIDENCE REVIEWED
12 October 2026 · 78 Sources

PURPOSE IS PRODUCT. MISSION IS MINDSET.

01 • THE BOARD

The 12-Market Deployment Board

6 Priority Markets

Central Florida leads; Dothan and Montgomery tie for second, then Greenville, Knoxville and Huntsville.

5 Behind A Gate

Weather in Michigan, edge-out in Charleston and Columbus, new build in Hernando.

1 Excluded

Pinellas County: no actionable opportunity identified for a team.

02 • DEPLOYMENT ORDER

Market Priorities & Exclusions

1 Central Florida

Core presence, as long as mixed-market management holds.

2= Dothan

ALABAMA BUILD

Partner networks and Tech Ops.
Reinforces the Alabama presence.

2= Montgomery

ALABAMA BUILD

Partner networks and Tech Ops.
Reinforces the Alabama presence.

4 Greenville

BLITZ SCHEDULE

Workable turf and
release windows.

5 Knoxville

4-6 AGENTS MAX

Alongside East
Tennessee fiber.

6 Huntsville

ALABAMA OPTION

Possible Alabama
reinforcement.

HOLDS & EXCLUSIONS

Charleston

Hold: channel overlap; scope the
edge-out.

Hernando County

New build only; fresh releases
required.

Columbus, Georgia

Hold for viable edge-out releases.

Central Michigan

Hold for favorable field weather.

Southeast Michigan

Hold for favorable field weather.

Pinellas County

Excluded: no identified opportunity.

03 · CLIENT ASK

Client Ask Versus Our Call

72 Positions

Client ask, all 12 markets

32 Ready To Work

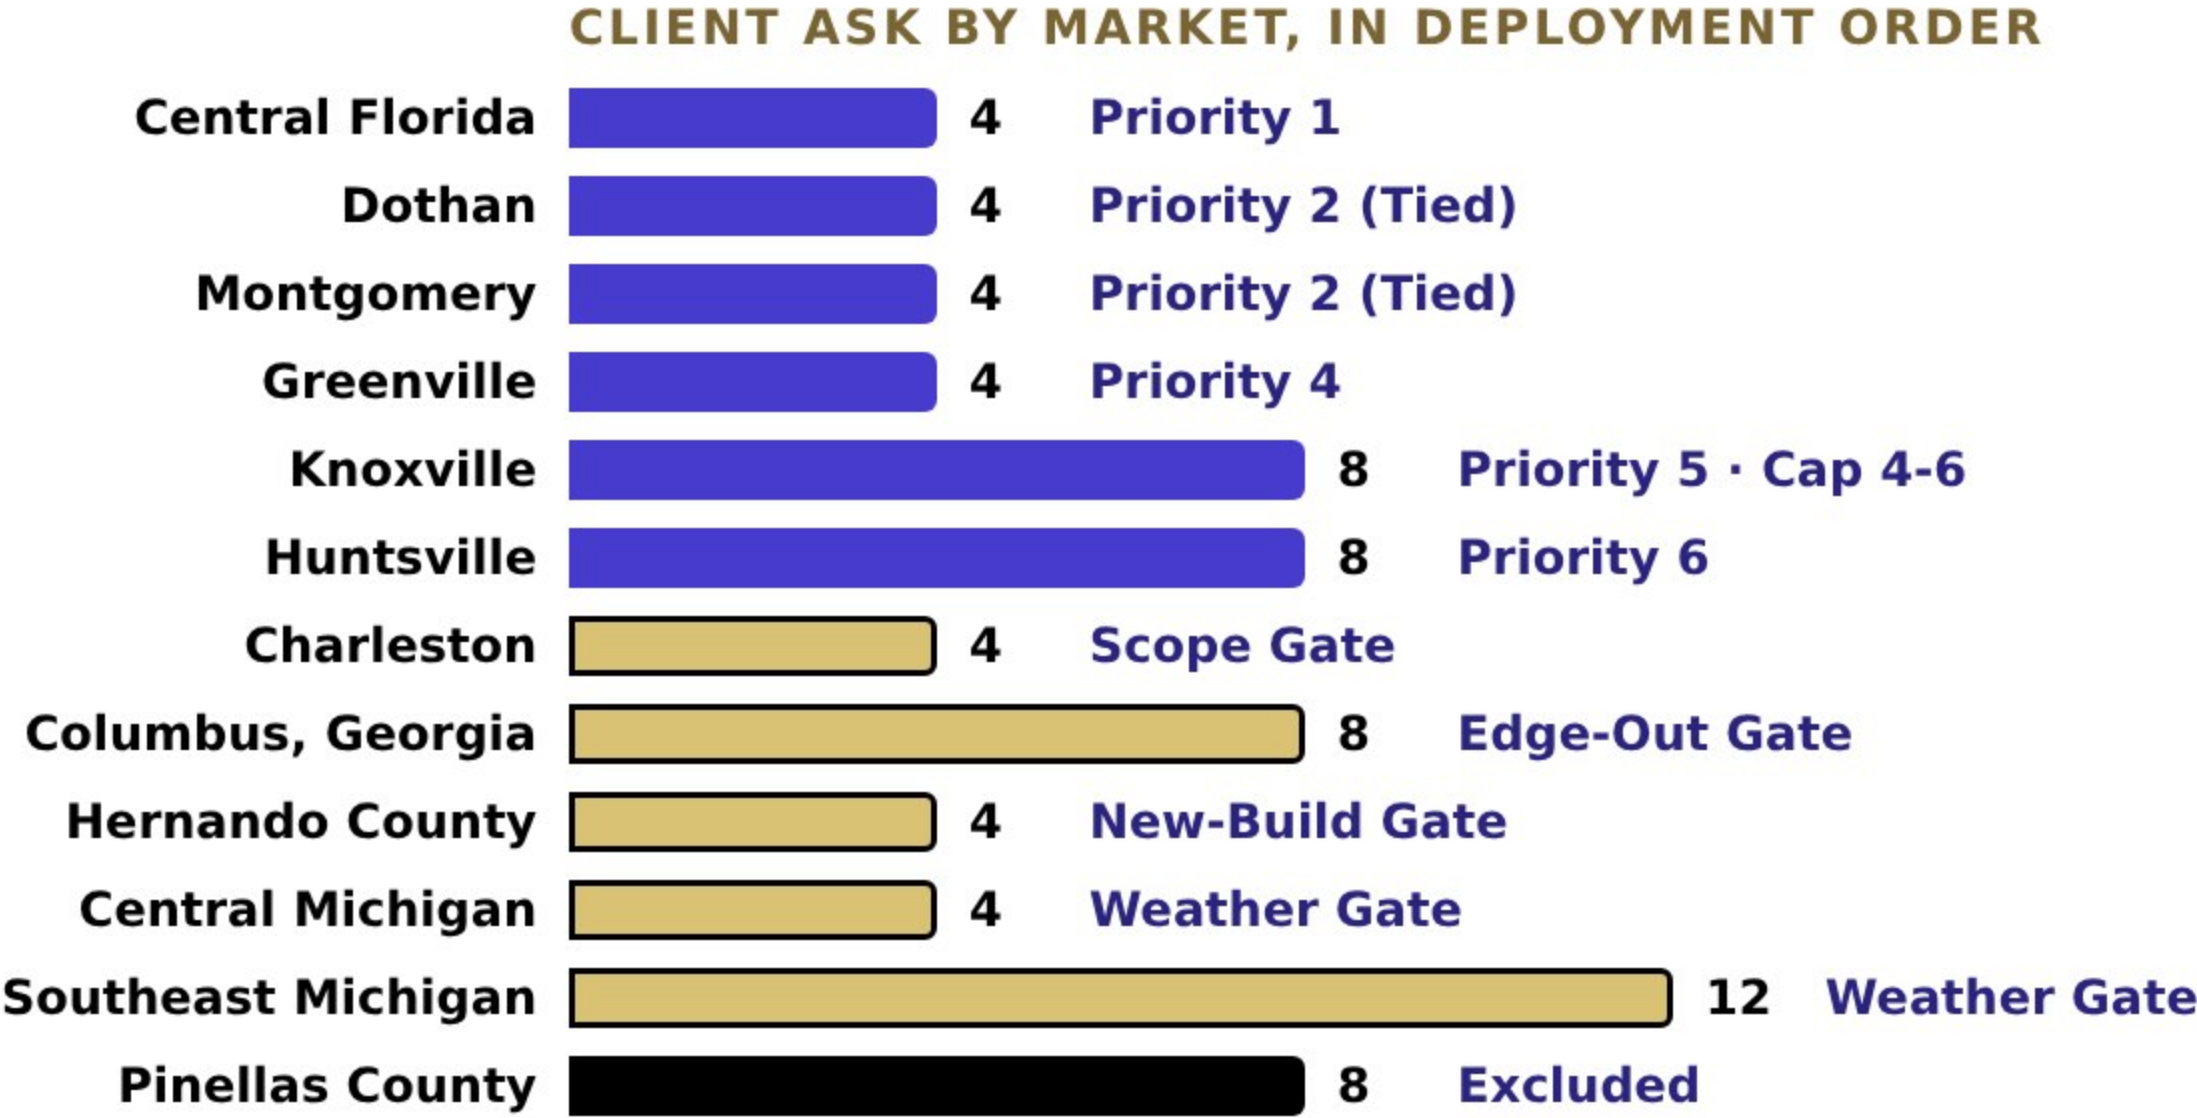

Six priority markets

32 Behind A Gate

Weather, edge-out, new build

8 Excluded

Pinellas County

04 · DEPLOYMENT GATES

The Gates Before We Deploy

SCOPE GATE**Ask 4****Charleston**

Scope edge-out releases and channel overlap before any standing team.

EDGE-OUT GATE**Ask 8****Columbus, Georgia**

Revisit after confirmed edge-out releases.

NEW-BUILD GATE**Ask 4****Hernando County**

Deploy only against a confirmed new-build release with install readiness.

WEATHER GATE**Ask 4****Central Michigan**

Reassess when field weather turns; confirm the Central/Southeast split.

WEATHER GATE**Ask 12****Southeast Michigan**

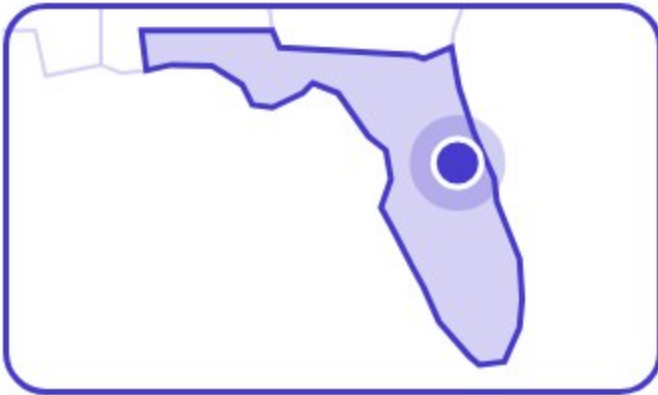

Reassess when weather turns, with refreshed turf and competitor checks.

EXCLUDED**Ask 8****Pinellas County**

Excluded from the current deployment plan.

Rankings reflect leadership input. Competitor evidence is cited on each market page; exact FCC address overlap is not yet measured.

Central Florida

Priority 1 · Conditional Core

Client Ask: 4

FOOTPRINT RECON June 2026 expansion: Longwood, Sanford, Fairview Shores, Ocoee, Rosemont and Engelwood Park across Seminole and Orange. Altamonte Springs, Maitland, Apopka and Winter Springs are on the build list.

Competitor	Technology	Field Evidence
Spectrum S38 · S18	Cable	Confirmed in Altamonte Springs; also listed in Longwood.
Quantum Fiber S36 · S37	FTTH	Live in Longwood and Maitland. Verify by WOW! address.
AT&T S35	FTTH + Other	Fiber qualification in Altamonte Springs; address dependent.
Metronet / T-Mobile S17 · S18 · S39 · S60	Fiber, Brand Check	In the Altamonte and Longwood snapshots. Confirm the retail brand.
Hotwire S17	Bulk / Community	Limited in Altamonte Springs. Verify HOA and property agreements.

FCC CROSS-CHECK · S17 · S18

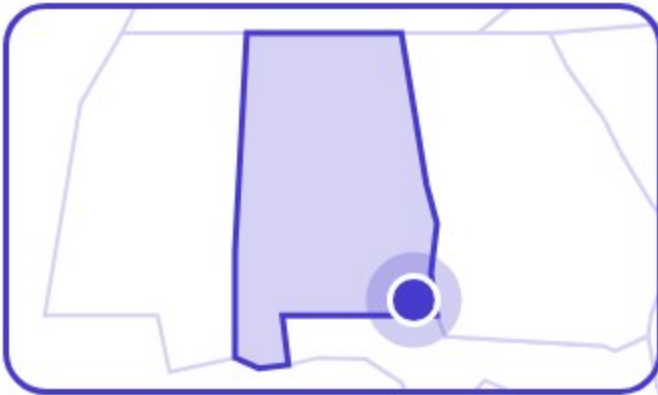

Altamonte Springs and Longwood list several fiber networks next to WOW! and Spectrum. That's a list of players, not proof they share a street.

COMMAND CALL

Priority 1. CFL is a solid core market as long as mixed-market management holds. Keep deployment coordinated and the mix productive.

Go Condition: Maintain CFL presence while mixed-market management is upheld.

Dothan

Priority 2 (Tied) · Alabama Opportunity

Client Ask: 4

FOOTPRINT RECON **S9 · S21** WOW! serves Dothan residential. The FCC town summary shows WOW! cable plus a fiber entry, so separate true WOW! FTTH releases from legacy cable before comparing product.

Competitor	Technology	Field Evidence
Brightspeed S49	FTTH + Copper	Wiregrass build complete (Mar 2026), with Direct-to-Door activity in Dothan.
C Spire / Troy Cable S50	FTTH	Fiber in Dothan neighborhoods; Troy Cable is the legacy name.
Xfinity S51	Cable	Confirmed in Dothan, bundling mobile with internet.
Spectrum S21	Cable	Cable plus a fiber-tagged entry. WOW! overlap and last mile unverified.
Fixed Wireless S21	Address-Qualified	T-Mobile, Verizon, AT&T Internet Air. Separate from FTTH rivals.

FCC CROSS-CHECK · S21 · S49

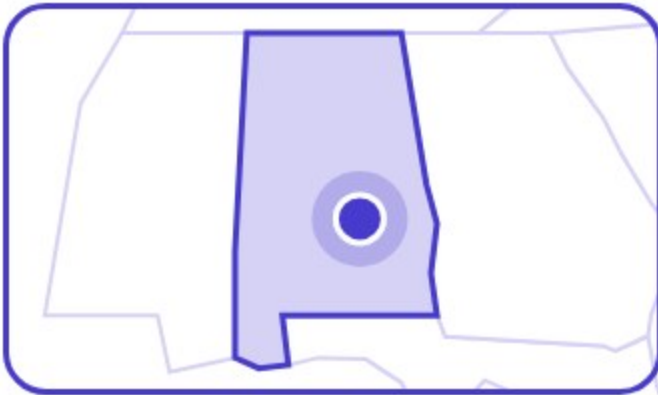

Lists Brightspeed and Troy Cablevision fiber beside WOW! and cable. Brightspeed's own release confirms live fiber and active field selling.

COMMAND CALL

Priority 2, tied with Montgomery. Partner networks and the Tech Ops environment make Dothan a strong expansion option for Alabama.

Go Condition: Evaluate partner-led deployment and confirm the local Tech Ops plan.

Montgomery

Priority 2 (Tied) · Alabama Opportunity

Client Ask: 4

FOOTPRINT RECON WOW! names Midtown, Forest Hills and East Montgomery (ZIPs 36104, 36106, 36107, 36109, 36117). The **S12** client table holds four positions; served addresses are the real denominator.

Competitor	Technology	Field Evidence
Spectrum S70	Cable	Coax to the premises, bundled with mobile and TV.
AT&T S69	FTTH + Other	Local FTTH qualification confirmed.
C Spire / Troy Cable S71 · S28	FTTH	Fiber in Montgomery neighborhoods; FCC still lists Troy Cablevision.
T-Mobile Fiber S60	Market-List Lead	Named on its market list. Live overlap unverified.
Property / Wireless S28	Location Dependent	Limited Gigafy and Xfinity entries. Verify property and last mile.

FCC CROSS-CHECK · S28

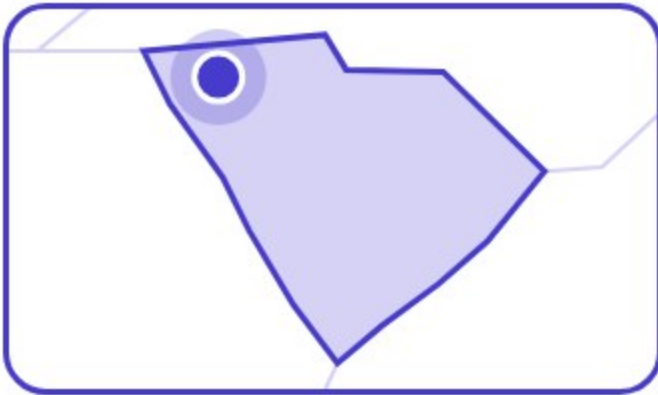

Lists WOW! and Spectrum cable with AT&T and Troy Cablevision fiber. No verified node-by-node WOW! overlap yet.

COMMAND CALL

Priority 2, tied with Dothan. Partner networks and Tech Ops support a closer look. Build it as one coordinated Alabama presence.

Go Condition: Evaluate partner capacity, local turf and Tech Ops readiness with Dothan.

Greenville

Priority 4 · Blitz Schedule

Client Ask: 4

FOOTPRINT RECON WOW!'s construction list names Five Forks, Mauldin and Simpsonville. Anchor there; don't assume all of S3 Greenville County carries the same competitor mix.

Competitor	Technology	Field Evidence
Spectrum S23 · S22	Cable, Upgrade Check	Listed in Mauldin and Simpsonville; technology entries differ.
Frontier S52 · S53	FTTH + Copper	Fiber in Simpsonville. Split live fiber from copper-only homes.
Ripple Fiber S54	FTTH	Serves Greenville County and Simpsonville. Confirm on released streets.
AT&T S23 · S22	FTTH + Copper	Fiber in both towns at different depth; shared addresses unmeasured.
Smaller / Wireless S23	Location Dependent	Skyrunner fixed wireless in Mauldin, plus the major wireless brands.

FCC CROSS-CHECK · S23 · S22

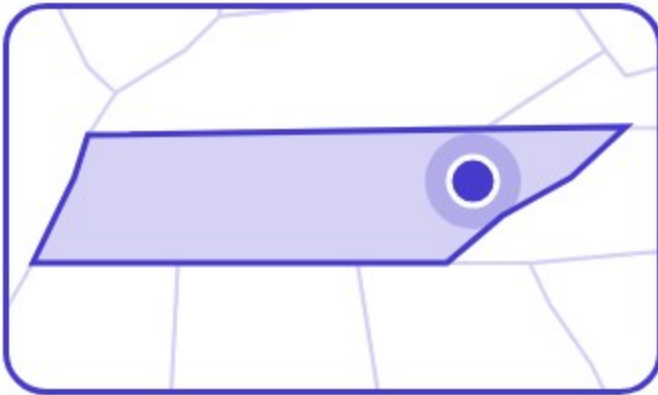

Mauldin data is June 2025 BDC; Simpsonville is December 2025. Both list several fiber providers, but they aren't one same-period dataset.

COMMAND CALL

Priority 4. Work Greenville on a focused blitz schedule, built around workable turf and release windows, not permanent staffing.

Go Condition: Scheduled blitzes with defined turf, duration and production targets.

Knoxville

Priority 5 · 4-6 Agents Max

Client Ask: 8

FOOTPRINT RECON
S78 · S3

The broader market includes Powell, where Frontier offers fiber. Assess WOW! legacy turf apart from the East Tennessee fiber initiative (Clinton, Oak Ridge, Oliver Springs); construction notices don't confirm activation.

Competitor	Technology	Field Evidence
Xfinity S68	Cable	Confirmed in Knoxville. Qualify each assigned street.
AT&T S26 · S27	FTTH + Copper	Fiber and copper in Knoxville and Oak Ridge. Confirm by address.
Frontier (Powell) S78	FTTH	Fiber in parts of Powell. Include it in turf comparisons.
KUB Fiber S64 · S65	Utility FTTH	Follows KUB electric territory; rollout map splits live and future.
LCUB Fiber S66 · S67	Utility FTTH	LCUB electric customers only, including Farragut and west Knoxville.

FCC CROSS-CHECK · S26 · S27 · S78

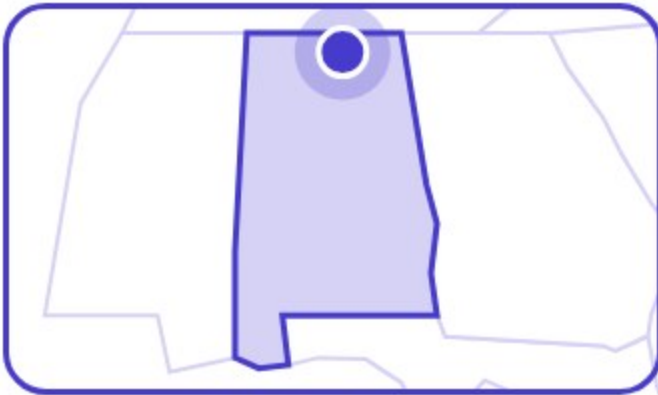

Knoxville and Oak Ridge snapshots differ, and Powell adds Frontier fiber. Check utility eligibility on assigned streets.

COMMAND CALL

Priority 5. Cap Knoxville at 4-6 agents alongside the East Tennessee fiber initiative, tied to released addresses and install readiness.

Go Condition: Cap at 4-6 and include Frontier in Powell.

Huntsville

Priority 6 · Alabama Reinforcement

Client Ask: 8

FOOTPRINT RECON **S11** WOW! names Downtown, Five Points, Twickenham, Jones Valley, Providence, Madison and Hampton Cove. Availability varies street to street; the city snapshot doesn't stand in for Madison.

Competitor	Technology	Field Evidence
GFiber S61	FTTH	Fiber-to-the-home network confirmed in Huntsville.
AT&T S62	FTTH + Other	Address-qualified FTTH confirmed.
Xfinity S63 · S25	Cable	Confirmed in Huntsville; listed next to WOW! cable.
NHTC / Mediacom / REV S25	Edge Or Limited	Low-availability entries. Don't extrapolate to the full market.
Fixed Wireless S25	Address-Qualified	T-Mobile, Verizon, AT&T Internet Air. Qualify separately.

FCC CROSS-CHECK · S25

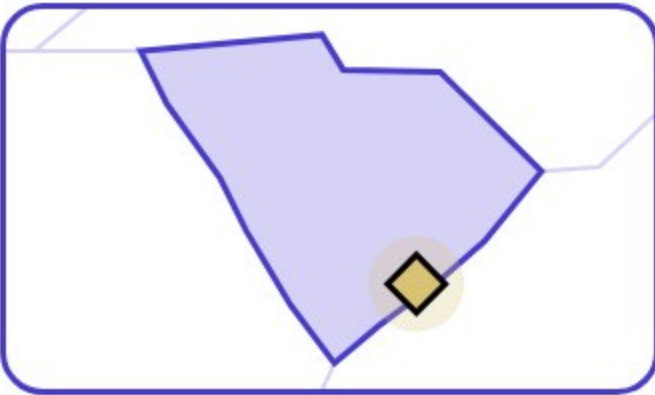

Lists GFiber and AT&T fiber with WOW! and Xfinity cable. A multi-network screen, not a share of WOW! homes facing competing fiber.

COMMAND CALL

Priority 6. A possible third Alabama market beside Dothan and Montgomery. Confirm partner and operating fit before committing a standing team.

Go Condition: Scope as an Alabama extension; confirm partner capacity and viable turf.

Charleston

Hold · Scope The Edge-Out

Client Ask: 4

FOOTPRINT RECON S7 WOW! names West Ashley, James Island and parts of Mount Pleasant as the starting geography. Northern metro communities need the client allocation to confirm inclusion.

Competitor	Technology	Field Evidence
Xfinity S40 · S19	Cable	Confirmed in North Charleston; listed citywide.
AT&T S41 · S42	FTTH	Fiber in Mount Pleasant and Summerville. Qualify by address.
IQ Fiber S43 · S7	FTTH, Live Launch	Oct 2025 launch in West Ashley and Mount Pleasant, right on WOW! turf.
Home Telecom S19 · S44	Fiber, Local	Listed in Charleston. Check its map for the northern metro.
Hotwire S19	Bulk / Community	Flagged citywide; property-level access unverified.

FCC CROSS-CHECK · S19

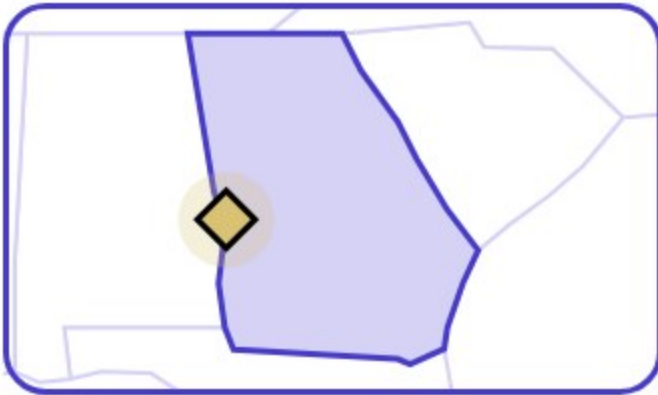

City summary lists WOW! cable, Xfinity and several fiber providers. City lines can't show the mix on the peninsula or James Island.

COMMAND CALL

Hold the standing team. Existing internal and external teams weaken the case. Scope the edge-out for a distinct opportunity with clear ownership.

Go Condition: Scope edge-out releases and channel overlap before any standing team.

Columbus, Georgia

Hold · Await Edge-Out

Client Ask: 8

FOOTPRINT RECON
S8

Columbus, GA, not the former WOW! Columbus, Ohio market. WOW! names Uptown, North and East Columbus and areas near Fort Moore (ZIPs 31901, 31904, 31906, 31907, 31909). A listed ZIP isn't a served address.

Competitor	Technology	Field Evidence
AT&T S45	FTTH + Copper	Address-qualified FTTH confirmed in Columbus.
Spectrum S46	Cable	Coax to the premises. Fiber-powered branding isn't FTTH.
Mediacom Xtream S20 · S48	Cable, Tech Check	Cable plus a fiber-tagged entry. Verify last mile before any fiber claim.
Lumos / T-Mobile S47 · S20 · S60	Fiber Build	Columbus/Muscogee is in its Georgia build. Check activation by address.
Local / Edge S20	Unverified	Conexon, Flint Cable, PST, CTV East Alabama; only where turf reaches.

FCC CROSS-CHECK · S20

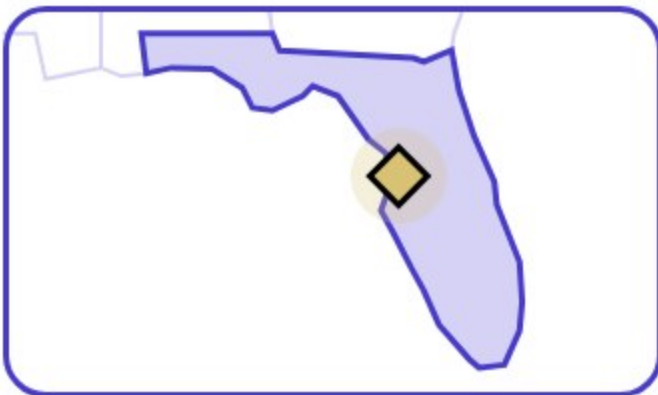

Lists WOW! cable, AT&T fiber, Spectrum, Mediacom and Lumos. A candidate inventory, not measured shared-address coverage.

COMMAND CALL

Hold the standing team until edge-out creates a viable opportunity. Re-run the competitive set when released addresses land.

Go Condition: Revisit after confirmed edge-out releases.

Hernando County

Gated · New Build Only

Client Ask: 4

FOOTPRINT RECON S10 · S3 WOW! launched Spring Hill and Hernando Beach, and the construction list adds Brooksville and Weeki Wachee. That is not countywide serviceability.

Competitor	Technology	Field Evidence
Spectrum S55 · S24	Cable	Confirmed in Spring Hill on its cable network.
Open Infra S57 · S24	Fiber, Retail Check	Operating network in Spring Hill. Validate retail by street.
Tillman / T-Mobile S58 · S24	Fiber Infra, Retail	Hernando build underway. One network; don't count it twice.
AT&T S56 · S24	FTTH + Copper	Spring Hill fiber, address qualified.
Frontier / Hotwire S59 · S24	Address Specific	Spring Hill fiber, low availability. Verify edges and bulk properties.

FCC CROSS-CHECK · S24

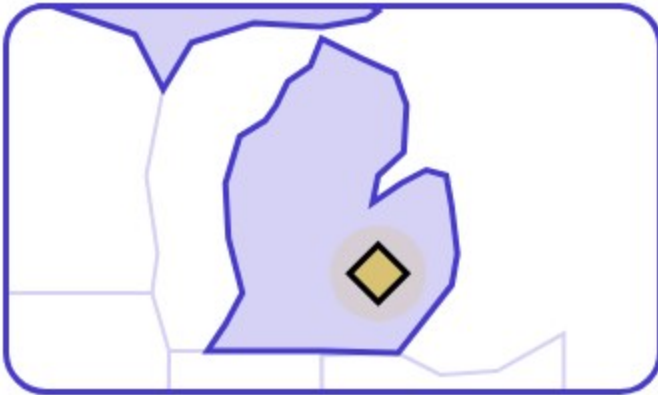

Spring Hill lists WOW!, Open Infra, AT&T and Tillman fiber, with limited Frontier and Hotwire. Candidate networks, not a county overlap count.

COMMAND CALL

Conditional. Hernando moves when new build creates a fresh, serviceable release. Legacy or rework turf doesn't justify a standing team.

Go Condition: Deploy only against a confirmed new-build release with install readiness.

Central Michigan

Hold · Weather Gate Client Ask: 4

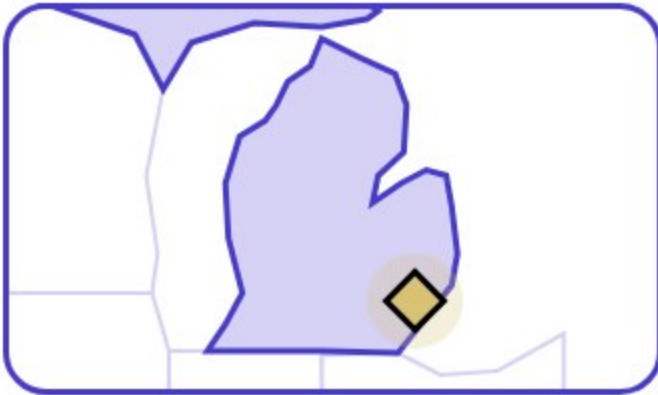

FOOTPRINT RECON Working read: East Central Michigan greenfield, including Brighton/Genoa/Green Oak, Flint, Lyon, Commerce/Milford and Wixom. The exact split from Southeast Michigan is unconfirmed.
S4 · S5

Competitor	Technology	Field Evidence
Xfinity S31 · S16	Cable	Confirmed in Brighton; prominent in Flint.
AT&T S32 · S33 · S34	Fiber + Copper	Fiber in Howell, Commerce and South Lyon; copper elsewhere.
T-Mobile Fiber S60	Fiber Candidate	Reported overlap is a lead for address checks, not proof.
Other Local S15	Location Dependent	Mercury fixed wireless in Brighton. Rural releases need their own check.

FCC CROSS-CHECK · S15 · S16
Brighton lists WOW! fiber, AT&T fiber and Xfinity. Flint lists Xfinity with limited AT&T and WOW! fiber. Town snapshots, not a release map.

COMMAND CALL
Hold the standing team until weather supports real field production. Then re-check the release mix and local competitor overlap.
Go Condition: Reassess when field weather turns; confirm the Central/Southeast split.

Southeast Michigan

Hold · Weather Gate Client Ask: 12

FOOTPRINT RECON WOW! names Dearborn, Royal Oak and parts of Detroit, with broader Wayne and Oakland coverage. Treat it as the legacy metro base; confirm the Central split with client territory codes.

S14 · S4

Competitor	Technology	Field Evidence
Xfinity S30	Cable	Listed with WOW! in Royal Oak. Qualify other suburbs separately.
AT&T S30 · S34 · S33	FTTH + Copper	Fiber in Royal Oak, South Lyon and Commerce.
Ripple Fiber S76	FTTH, Live Towns	Plymouth, Canton, Allen Park, Sterling Heights, Westland; Garden City next.
Metronet / T-Mobile S30 · S60	Fiber, Brand Check	Metronet in Royal Oak; T-Mobile lists Clinton Township. Validate.
123NET S30 · S77	Limited FTTH	A 2021 release named Royal Oak an evaluation target. Confirm today.

FCC CROSS-CHECK · S30

Royal Oak sits inside WOW!'s footprint with WOW!/Xfinity cable and several fiber entries. It doesn't represent all of Wayne, Oakland or Macomb.

COMMAND CALL

Hold the standing team until weather supports real field production. The 12-position ask is a reason to revisit, not a staffing call today.

Go Condition: Reassess when weather turns, with refreshed turf and competitor checks.

05 · MARKET RECON · 12 OF 12

Pinellas County

Excluded · No Deployment Opportunity

Client Ask: 8

FOOTPRINT RECON **S13** WOW! names Clearwater, Largo and Seminole. The client address allocation decides any other Pinellas cities; county branding is not universal coverage.

Competitor	Technology	Field Evidence
Spectrum S73 · S29	Cable	Confirmed in Clearwater; listed next to WOW!.
Frontier S72 · S29	FTTH + Copper	Clearwater fiber qualification; technology varies by address.
IQ Fiber S74	FTTH, Live	Live in Pinellas, newer than the December 2025 snapshot.
Tillman / T-Mobile S75 · S60	Infra / Retail	St. Petersburg is in its Florida build. Verify retail and street overlap.
Other Access S29	Location Dependent	Rapid Systems fixed wireless plus the major wireless brands.

FCC CROSS-CHECK · S29 · S74

Clearwater lists WOW! and Spectrum cable plus Frontier fiber. A December 2025 snapshot can't capture IQ Fiber's 2026 footprint.

COMMAND CALL

Exclude Pinellas from this deployment plan. No actionable opportunity has been identified to support a team in this market.

Go Condition: Excluded from the current deployment plan.
